

NATASHA DESCHENE

Natasha Deschene, P.E. is the Vice President of Electric Asset Management and Engineering for the New York Jurisdiction at National Grid. In that role she has responsibility for asset management, planning, and engineering for both the transmission and distribution system, which includes the development and prioritization of a \$1 Billion annual capital portfolio. She has also led various initiatives related to resiliency and the clean energy transition.

Prior to her current role, Natasha was the Vice president of Electric Systems Engineering and has had various roles within the Transmission Line Engineering and Transmission Construction organizations at National Grid.

Natasha Deschene holds a B.S. in Civil Engineering from Worcester Polytechnic Institute and an M.B.A. from Bentley University. She also has her Professional Engineering License in Massachusetts and a Business of Energy Certificate from Clarkson University.
